CONTINUATION

GENERAL INFORMATION PERTAINING TO WATER RIGHTS IN CALIFORNIA

There are two principal types of surface water rights in California. They are riparian and appropriative rights.

A riparian right enables an owner of land bordering a natural lake or stream to take and use water on his riparian land. Riparian land must be in the same watershed as the water source and must never have been severed from the sources of supply by an intervening parcel without reservation of the riparian right to the severed parcel. Generally, a riparian water user must share the water supply with other riparian users. Riparian rights may be used to divert the natural flow of a stream but may not be used to store water for later use or to divert water which originates in a different watershed, water previously stored by others, return flows from use of groundwater, or other "foreign" water to the natural stream system.

An appropriative right is required for use of water on non-riparian land and for storage of water. Generally, appropriative rights may be exercised only when there is a surplus not needed by riparian water users. After the formation of the California Water Commission back on December 19, 1914, new appropriators have been required to obtain a permit and license from the State. Appropriative rights can be granted to waters "foreign" to the natural stream system.

Statements of Water Diversion and Use must be filed by riparian and pre-1914 appropriative water users as set forth in Water Code section 5100 with specific exceptions. The filing of a statement (1) provides a record of water use, (2) enables the State to notify such users if someone proposes a new appropriation upstream from their diversions, and (3) assists the State to determine if additional water is available for future appropriators.

The above discussion is provided for general information. For more specific information concerning water rights, please contact an attorney or write to this office. We have several pamphlets available. They include: (1) Statements of Water Diversion and Use, (2) Information Pertaining to Water Rights in California, and (3) Appropriation of Water in California.

# Department of Water Resources Report of Licensee for 2005, 2005, 2007

## CONSERVATION OF WATER

G.1.a. Describe any water conservation efforts you may have started.

Atascadero Mutual Water Company (AMWC) is continuing with a number of successful conservation and water use efficiency programs including; a bathroom retrofit rebate program; residential and commercial sprinkler system inspections and audits; landscape water use seminars; and public out reach and education. AMWC continues to network with other regional conservation program managers to exchange ideas and share resources.

The Groundwater Guardian Program, under the auspices of AMWC, continues to engage the community in water resource protection issues. Programs include the production of a community calendar; a water conserving landscapes awards program, a creek and river cleanup and watershed fair.

Programs implemented or expanded during the current reporting period include a classroom water education program for elementary grades, developing more landscape related educational materials, participating in a local river school, facilitating a conservation program for north county water purveyors and sponsoring a landscape water use proficiency training program for landscape maintenance professionals. AMWC has also participated in the establishment of water conserving demonstration gardens.

STATE OF CALIFORNIA  
THE RESOURCES AGENCY  
STATE WATER RESOURCES CONTROL BOARD  
DIVISION OF WATER RIGHTS  
STATEMENT OF WATER DIVERSION AND USE

This statement should be typewritten or legibly written in ink.

S8285

A. Name of person diverting water Atascadero Mutual Water Company  
Address P. O. Box 790, Atascadero, California 93422 (805) 466-2428  
B. Name of body of water at point of diversion Salinas River  
Tributary to Salinas River Pacific Ocean  
C. Place of diversion SE 1/4 NE 1/4 Section 25 Township 28 S. Range 12 E. MD. B&M, San Luis Obispo County, or locate it on sketch of section grid on reverse side with regard to section lines or prominent local landmarks.

D. Name of works Atascadero Mutual Water Company

E. Capacity of diversion works 6500 gallons per minute

Capacity of storage reservoir 3 M

State quantity of water used each month in thousand gallons

Year	Jan.	Feb.	Mar.	Apr.	May	June	July	Aug.	Sept.	Oct.	Nov.	Dec.	Total Annual
1973	31,076	27,086	31,196	26,256	97,862	46,724	121,047	115,045	26,019	60,558	37,325	81,141	814,725

If monthly and annual use are not known, check months in which water was used. State extent of use in units, such as acres of each crop irrigated, average number of persons served, number of stock watered, etc.

Maximum annual water use in recent years 948,205,000 gallons

Minimum annual water use in recent years 687,089,000 gallons

Type of diversion facility: gravity XX, pump XX

Method of measurement: weir XX, flume XX, electric power meter XX, water meter XX, estimate XX

F. Purpose of use (what water is being used for) City of Atascadero

G. General description or location of place of use (use sketch of section grid on reverse side if you desire)  
Atascadero Colony

H. Year of first use as nearly as known prior to 1914

I. Name of person filing statement Phoebe L. Barrett

Organization Atascadero Mutual Water Company

Address P. O. Box 790, Atascadero, Ca. 93422

I declare under penalty of perjury that the above is true and correct to the best of my knowledge and belief.

DATE: February 21, 1974 at Atascadero, California

Signature: Phoebe L. Barrett
